Letter addressed "BH," written by CHKD near the freeway.

3/31/24

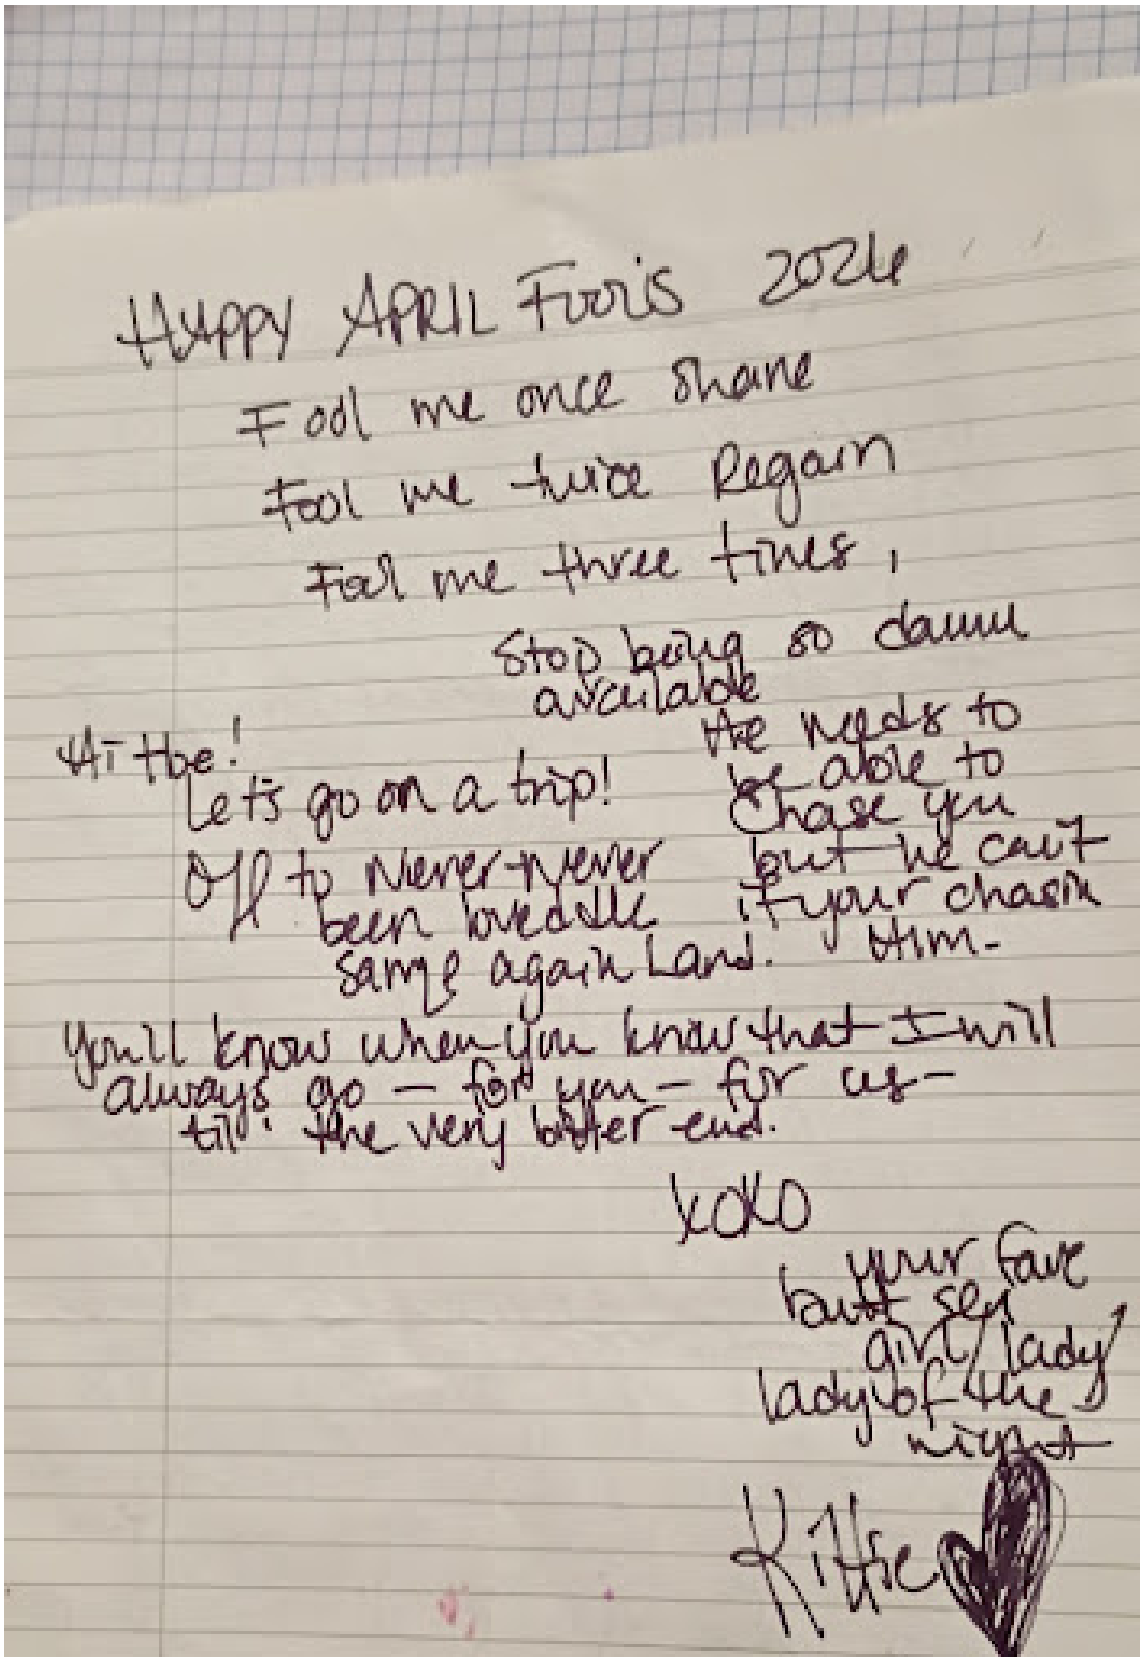

BH,

As I sit here right to this CHKD looking at the freeway or Interstate listening to all the cars who by ... debating on my next move in life. Whether to get a car, an apt. or just buy a plane ticket to some other state that awaits my gentle soul, I think about the fact that I'm gonna miss but see ful you. A simple yet most difficult feat that I never imagined I'd enjoy all bc of you & the size of your most excellent penis. A size I never thought could make me cum so hard & so many times in a row. I figured out why I'm so sad these past several days. We were having sex everyday or every other day practically since we've met. I mean in the beginning - no, but the past several months -- oh wait I was gonna check on that...

Okay so we haven't known each other for too long - 3 months & I'm totally smitten with you except your lack of intimacy & loyalty. I suppose I'm just too old to want a closeted of depth in my life. I swear if I had to train one more person to love me the way I love them I'd just go crazy. There's nothing like meeting your "match" or "type of people" & realizing that they are just not on the same wave of life as you. My life has very little stability & I wish I had more to offer.

Hey. You know what? When I think about my future I see you distantly. Not too far in the window can I look, but I don't need to see too far, but I also am trying to live in the moment. Hanging out here, in the moment is tough b/c I can't stay or go into fantasy-land, I stay close by so that I can pull off my current goals. Cosmos says I need to allow the 7 planets in Aries perform exactly what they are destined to do. Structure - discipline, ambition - I soul - aligned manifestation. I want partnership so we can both become the people that we are meant to be.

- SIDE NOTES -

Just in case you were wondering on your all too filled up chaotic mind & almost never available non-emotional - surrounded by an electric fence heart (that I know is one of the most passionate) that very rarely has time to participate in my cries for attention? For serious. Do. You. Think. I. want. to. Choose. This. matter. making. that the spirits & Universe has smashed us together STOPLESS & I have attempted to "let you go" stopped caring & archived your texts so stopped looking at you there all the time/I don't have to look at your name in my phone. Good thing I haven't taken any pics with you. YET. If you think that I'm want to feel like this everyday - waiting for you to figure out that I'm supposed to be sitting next to you, ride or die. Duh. When are you gonna wake up & put your issues & with

Today felt like History b/w us.

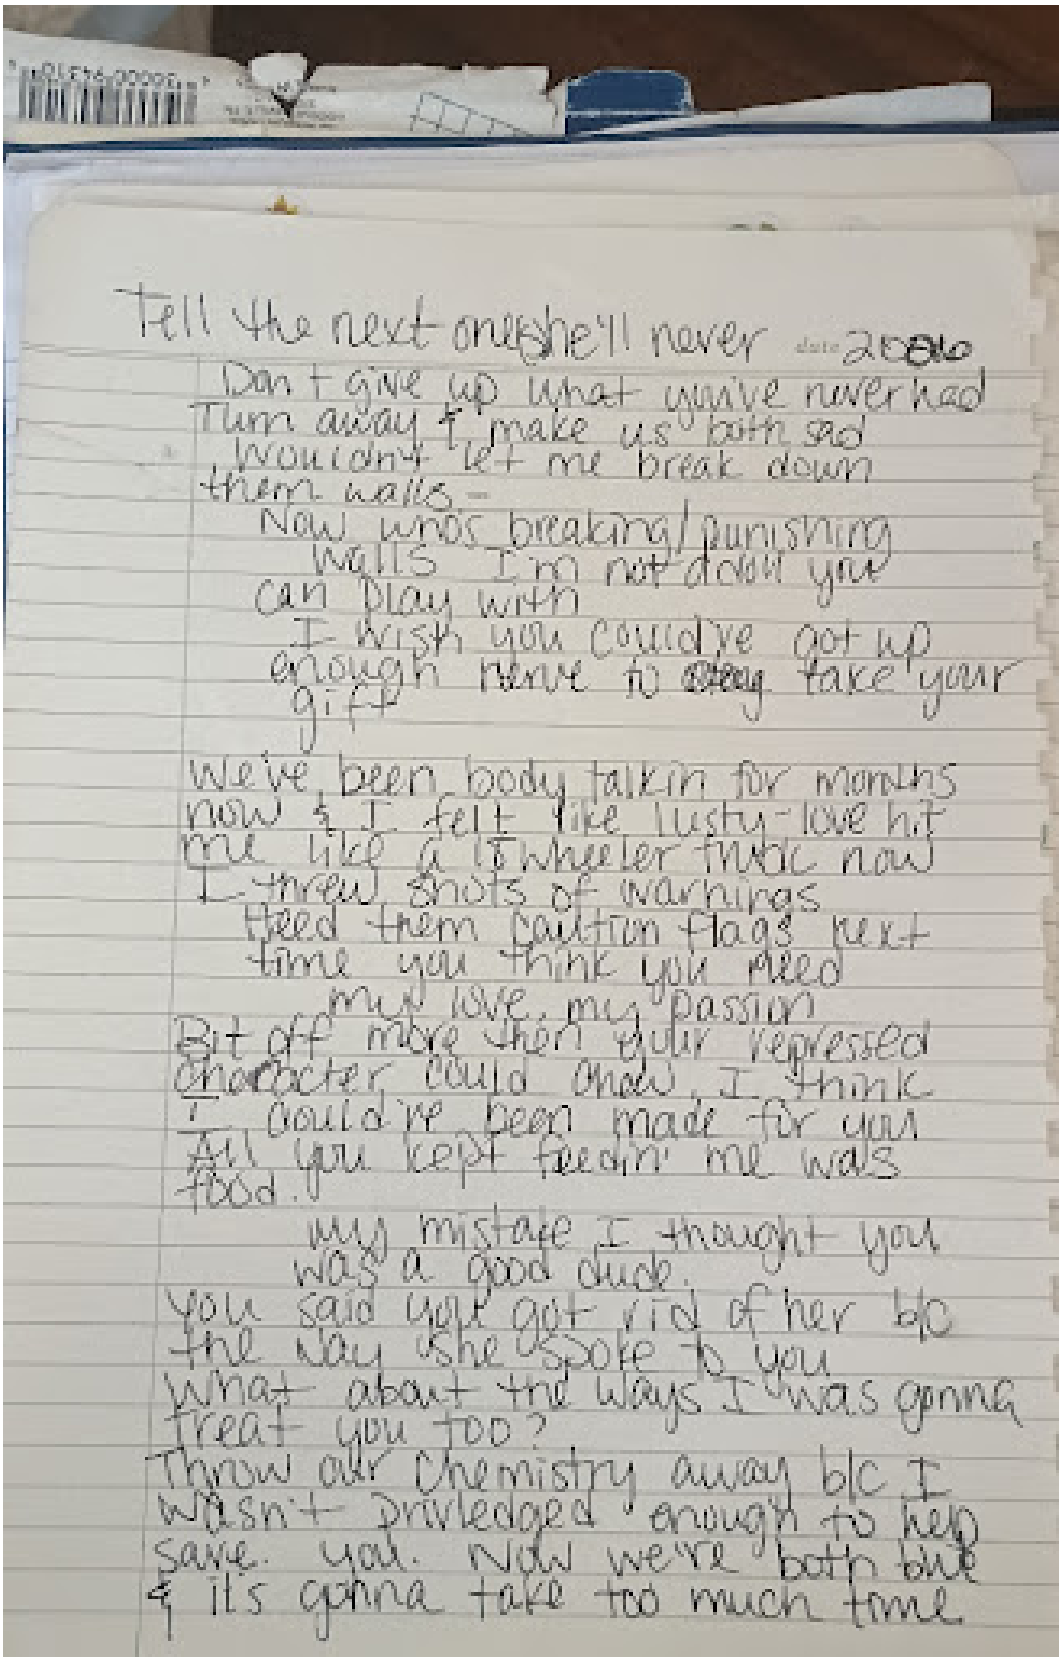

Today was the mother fucking best sex I've ever had with you AGAIN! Even though you didn't fully enjoy the ending I was distracting, tapped out & I'm sure you will be here ASAP to have me finish up my light work for you.

I may finally have what I need from you I super hope that you can't resist me again in 2-3 days & I just want you to know that I'm incredibly impressed by the way you kept your patience with me today & how you chose to communicate with me & not shut me out. Bc I don't know what's come over me lately but the more I distanced the better I felt about us not being together & then here you go sweeping me off my feet again I've never. And I mean NEVER had anyone put their lips on my kitty & make me scream the way you did today. I meant what I said I hate thinking about other women touching you or you touching other women like you do me. They can't have you like that not unless we're sharing. Those are the most special moments I think we've ever had & I'm gonna work on making sure I don't stop but all the time when you need your space. I do think that we may have something worth pursuing & I hope you feel the same. Please know that I write to you bc I want to learn how to be the woman you need. Love me 4 ever & always.

Don't give up what you've never had
Turn away & make us both sad
Won't let me break down

Now who's breaking/punishing
walls I'm not down you
can play with
I wish you could've got up
enough nerve to ~~stay~~ take your

We've been body talkin for months
now & I felt like lusty-love hit
me like a 18 wheeler truck now
I threw shots of warnings
Heed them caution flags next
time you think you need
my love, my passion
Bit off more than your repressed
character could chew. I think
I could've been made for your
fill you kept feedin' me was
food.

My mistake I thought you
was a good dude.
You said you got rid of her b/c
the way she spoke to you
What about the ways I was gonna
treat you too?
Throw our chemistry away b/c I
wasn't privileged enough to help
save you. Now we're both lost
& it's gonna take too much time

Long ago I believed in love @ first sight. I miss you already. Bye.

today I'm lost again. IDK why or what you think your doing with my heart right now but when I find out from facebook that you had people in your room, in your house partying & you didn't even answer my texts last night I really see that I'm way more invested then you will ever be & I'm not built to be put last. I'm not used to having to fight for anyone of my men's attention much less a ~~text~~ goodnight or Good morning beautiful. In fact you don't ever tell me I'm beautiful so IDK where your head is at but I need a little more & you just aren't willing to give it to me. I'm sure youre gonna say that your gonna back off, which youve already done twice now, but I promise when I can't fight the urge to talk to you or allow you into my bubble I'm going to. I can't be with you the way I want so I guess the Universe was wrong, we weren't meant for each other & I'm trying to put us together like a picnic ~~basket~~ when you don't even want a girlfriend to cook or clean for you. We are opposite & the sex is great but the absence of you throughout the day & especially at night is disheartening to the point I'm ready to collect my tears in a jar so you can see just how much it hurts me to know you don't think about me until you need your penis & balls drained. Everyday is confusing & your living a dream while I'm over here

Why do I sit here, hour after hour, day after day weeping & sobbing & sometimes just crying with no sound; emotionally distraught while you carry on with your life like nothing has happened? What did I do to deserve this type of abuse? Why do I think something is wrong with me & that I'm not worthy or good enough to be the woman by your side? How do you make love to me everytime knowing that I'm falling in love w/ you while we're doing it & then act like it means nothing. Why am I not important to you? Why won't you carve out time to show me I'm wrong? BC I'm not wrong. I just don't know how to accept it. I don't know how to separate my feelings from the passion. My passion runs too deep. My body speaks to my heart when a man makes love to me the way you do. I'm a mess. I'm a blubbering mess & your probably next to another woman making love to her in the same way. Where is your heart or do you have one? Why are you dragging me through the mud? Why is this happening to me? I didn't ask for you to come to my hotel & manipulate me into having sex w/ you. I didn't want to love anyone other than my man in jail & I wish I had never met you. I feel so ignorant & childish for not being able to see what you were doing. I wish the sex had never gotten better & better. And you'll never read these letters not that I even want you to. What can I do to make you feel like I feel right now? Why don't you hurt & feel pain in your heart like

Would you call if you knew how much I've cried? Would you come hold me & tell me you care if you knew the tears sometimes fall down like rain? How can I make you understand how badly this eats away at me, that you don't even blink an eye to my suffering. Could you possibly hear or feel the betrayal that I feel inside my bones. You said so much & so little in 3 months time. You must be so hard & cold from prison that you would never know how bad this hurts. To think of you like my sparring partner who could've challenged me to be a better woman instead you wanted me to be weak so you could have me just where you wanted me, always calling you to get you to come to me. At first the obsession was the dope, then it became something else altogether b/c you couldn't keep your hands off me when you saw me. You even wanted to fuck me with your gf in the car downstairs, but I wouldn't let you. How can you not feel something, remorse, guilt, shame, lust... since we haven't touched? I guess my touch wasn't enough for you to really crave me & not just my body. Just when I think I'm stronger I realize you haven't called or text me, yet again another day w/o you tears my heart into ripped up pieces again. How could I have let myself feel like this over a man who only came to me when I called him for drugs? Why did I allow you to take over my body & my soul like that?

I sit here, wait I stand most of the time & I daydream of what your day might be like I envision myself in your passenger seat & being involved with your everyday life and what that would be like. I stand here & wonder why you won't let me in & why when I need help you're the one I want to ask but you won't make time for me so I won't bother you with my problems. When there's no one here & I'm crying was why can't I text you & tell you how much I want you by my side? Why is it so hard to let love be your guide. When you said, "you know" what "you want" did that mean you don't see it in me or does that mean you are just using me as a placeholder for the woman who's deserving of your time & your heart? Why keep dragging me along if you don't see a future with me? Why keep me guessing? Why push me away? Why make me wonder just what you think? Why can't we build together its clear that we're supposed to be something to each other. Is it just sex that you see & that you want or can't I know that you want more when will you talk to me about what my life in yours means? Why make me wait in agony & tell me not to catch feelings when you know what I want already? I wish I knew your intentions I wish you would stay with me at night & talk about your dreams

& what you want out of life? why when so many men have jumped at the chance do you not see my worth & why won't you show me that I'm more than what you've decided that we are? when will you see how much I feel when I'm with you like we are supposed to be together? how much of myself do I have to repress to not feel this pain from being away from you or I have to be tortured with? I guess I'll just keep writing letters & wishing on a star that we will come together no matter how far the journey. I can only dream of loving you from a distance right now but I want to show you that I'm looking to you for love & guidance & I wish you would let me embrace you & why did you even contact me to begin with? for the drug? Baller? Did I look like the type that would let you just come talk for free? why have you made me feel this way and lead me to believe that you see more in me? I'm so distraught & I want so desperately to show you how strong I can be but what if I'm not enough? what happens when I outgrow this love sick puppy inside me & then where will we be? Until we meet in another time & place I guess I'm not the one you dream of like I dream of being with you. – Heartbroken daily – Kittie

What I once gave up with my guy Mark I'm going to put on the back burner like you have done to me & I'm going to move on with my life & see where the road takes me. For once I'm gonna put men aside & focus on loving you from a distance & I'm still love you but I'll be outta sight & outta here so I can distract myself from this raging heart-break. Tell me why I feel like this!! Please tell me why your the only man that my soul actually connected to? They say soul ties aren't hard to break & I need to break ours Brean. I'm dieing inside. Letter 1: "The Silent Room."

date / /

Hi! Do you think maybe you could clarify for me what exactly about me or what exactly I'm not doing in life that would keep us from being together in the future like I'm not saying that I want to be with you anytime in the near future like an intimate relationship other than what we already have right now but I like what we have. Believe me, I'm loving the way we connect right now. I think we could use a little bit more conversation about what I'm lacking or what can I do to make you want me? what can I do that would make me appealable. can't you help me put some sort of clarity on why you don't want me or why you don't want to invest time into making me what you want. You said you know what you want but you didn't tell me. I wanna know what you want & why I can't be that for you. What am I not doing in life that would make you want me???

I sit here & I dream of you in my life on a daily - knowing it will never come at least I have you sometimes & that's more than I can ask for. Nothing makes sense as to why I haven't gotten the help I need & I'm getting to the point that I want to just say fuck everyone bc no one is really out to help me. just themselves. I'm scared to leave & I'm scared not to.

What am I supposed to do when it's time to go? You've shown me two redheaded chicks that got sober & were your homegirls or your friends but we've never talked about how you know these girls & I think it's you used to fuck them too & when they got clean they no longer see you, but you see them. I wish I knew what you wanted in a female so I could grasp my mind around the fatal reality.

Now I know the difference b/w you when your stressed & have so much going on that you barely have time for me & then the you when you've had a few drinks & I'm the body that you want to penetrate. The more you show me the more I want to be the woman beside you in everything, & the

I wish I could explain to myself that what I'm feeling everyday is an imaginary lustful desire that springs my deepest pain for the most pure love that exists.

And you never around to see just how much I think of you & how badly it hurts, how deep the pain is stemming from. I'm not even sure why so much as I know how intense you feel when your horny & right behind me, ready to pounce on me & give me every act of passion you've been holding back. I wonder does anyone else drive you crazy like that & how could you feel that way about another person when it feels so solitary with me. Will you still want me or even more so when I'm just out of your reach & I find other things to occupy my time besides day dreaming of our love making that you only give me in small portions when I call & I try to resist. Deeply I know that this must end, that it never was meant to be bc if it was you wouldn't torture my heart by staying so silent & too busy for a junkie like me. You think your a higher standard, that I'm beneath you & you don't want to help me grow, you don't see the woman within me struggling to find her footing again. Dear,

So, with everything that has been passed with us, there is always 29 ways I just have to jot down a few 20 things... first, where have you been all my life? maybe I was over zealous with the last one, thinking that laughter was gonna make me happy. It didn't & the negative pull & control was clearly not made for me. Today, when we made love I felt complete release & relief for you. Finally gave me the emotional/mental ques I needed to feel secure. Just like the cosmos presented. I found that we are meant to travel down this path together. I know it won't always be easy but I will always be the woman you can run to/not run away from. Everything at all. I will always try to stay open-minded, honest, calm, & transparent for you. There's nothing more that I want for you, for us & our children than to be happy, healthy & well loved & cherished. This will only be seen on you on the days we decide to take our relationship further & commit. Bc I am hoping that we have a lengthy period of "dating" or getting to know one another & a large healthy frame of time that we take things day to day & cherish every moment, support one another & work together as friends & lovers. I meant what I said, I would do anything you ask of me & I heard you when you said don't push & then don't rush & I won't. I'll patiently enjoy every minute you give me & I'll remind you of how much I love you from this moment on.

Love me until I can love myself the way nature tells us we are to do with the newcomer. Mary Elemental Structure. Mother will incorporate loving nature & looking at the love the Elements give back to us daily.

I think, finally my brain has caught up to my heart — or is it the other way around? Either way I've let go a little bit more each day that I watch you walk in my room & fail my expectations miserably. Yesterday I watched you "dap" up two young men - didn't know them for real, the second one you had never met & you touched them more than I've ever witness you touch me. I think it blew my mind bc you totally did it even tho with zero little love for me physically or emotionally. And now that I'm writing back all of this out our situation I'm having a place to write it all down & a "person" to talk to/with about you has been comforting on a higher level than I like possible.

I now know that when I'm pre-menstrual it's very non-regulated when it comes to you or anything that hurts my feelings & my ego.

my ♡ beats for a love so pure
& deep that I almost believe that
you couldn't keep up for real.
The lack of depth that comes from
our disagreements surprises me.
Your ability to disappoint comes as a
shock to me b/c I held you

Why didn't you want to be attached to me? why couldn't we be lovers & friends? whats wrong with lieing to your girlfriend to be with me if lieing to me is okay from the beginning. Have you ever felt a love so pure that you could feel the other person in your essence. When a man feels so good to my body I relish in the moments. There's not many moments in life that I can say "I'll remember that forever" times with you felt so real & special like nothing else mattered but the way our bodies linked together & release the inner animal among each other. my story will never be boring as long as your lips touch mine & make my body & soul cry for it over & over again. whats love but a second-hand emotion? whats love got to do with how we make fireworks in the sky? xoxo Kittie

You don't know what you do to me. Your all I think about, the way we rock in them sheets. The way you kiss me so deep. My kitty leaps at the thought of your touch, the way you suck my tongue & caress my butt. I try to fight my feelings I try to resist you b/c my head hurts so badly. Nothing can soothe my sadness but you. Why did you put it on me so much? Do you even know how much you make me cum? Have you thought about the fact that I can't keep you off my mind? Why do you torture me so bad? Where did this all come from. The minute you told me you were single I knew it was a sign & I moved on it & made myself more available for you & I to push to a nother level. Maybe not too serious, but serious enough for me to re-evaluate my standing with other people. After all it's only been 3 months since we met & I'm sure that I love the dick, but what if I really could love you too? The way you stare into my eyes when your making me cum. The way you lock my body in with your biceps ~~tighter~~ wrapped around me, fucking me into your body. That mean I know makes me want to be under you for forever. Maybe you just
